## Editorial Policy

The purpose of the Integrated Report is to convey the Daio Group's management philosophy and value creation story to its stakeholders. Each year, the Daio Group issues an integrated report to communicate its strategies for achieving the "affable future" it envisions, from both a financial and a non-financial perspective.

This time, we revamped the structure and centered it around our Long-Term Vision, "Daio Transformation 2035," announced in May 2024. In particular, we have devoted considerable space to the four focus themes of our Long-Term Vision, the material issues related thereto, and the governance framework vital for advancing each measure.

We will continue to gather readers' feedback and improve the content of the Integrated Report to provide a deeper understanding of the Daio Group's value creation story and our initiatives addressing material issues.
